

DP2K-P

The gold standard for digital post-production

The Barco DP2K-P is the world's only cinema projector specifically designed to meet the high performance needs of the post-production industry.

Proven platform

The DP2K-P builds on the proven platform of the Barco DP2K-B projectors, from which it inherits widely acclaimed benefits such as best-in-class light efficiency, lowest cost of ownership, and ultimate ease-of-use.

Enhanced image detail

To respond to the highly specialized needs of post-production houses, the DP2K-P projector delivers improved contrast, superior brightness uniformity, and a greatly expanded color gamut - considerably wider than the current DCI recommended color space.

Increased control

What's more, the DP2K-P post-production projector is bundled with a special version of the Barco Communicator software, enabling you to fully customize your 2D and 3D look-up tables. This dedicated software provides increased control over the color space, which allows you to do your job with an unprecedented level of accuracy.
